

ANAMIKA SINGH

MERN Stack Developer

Bengaluru, India | +91-9572477848 | [Email](#) | [Github](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

MERN Stack Developer with 2+ years of professional software development experience designing and developing full-stack web applications using MongoDB, Express.js, React.js, Node.js, TypeScript, and .NET. Experience mentoring within a 5-member cross-functional engineering team, with hands-on exposure to microservices architecture, Docker, Kubernetes, and DevOps practices, including CI/CD deployment on GCP and Vercel. Delivered production features improving user engagement by 30% and reducing manual effort by 40%. Solid understanding of object-oriented programming, design patterns, and Agile methodologies, seeking to bring full-stack ownership and technical collaboration to a product-based healthcare technology team.

SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, C#, DSA

Frontend: React.js, Next.js, HTML, HTML5, CSS, CSS3, Tailwind CSS

Backend: Node.js, Express.js, NestJS, .NET, Spring Boot, REST APIs, Microservices Architecture

Databases: MongoDB, PostgreSQL, MySQL, SQL, NoSQL

Cloud & DevOps: Docker, Kubernetes, Google Cloud Platform (GCP), Vercel, CI/CD, Git, GitHub

Testing: Manual Testing, Unit Testing

Methodologies: Agile Methodologies, Scrum, DevOps Practices, Object-Oriented Programming Principles, Design Patterns

Soft Skills: Mentoring Software Development Team Members, Analytical and Problem-Solving Skills, Communication and Collaboration

WORK EXPERIENCE

Associate Software Engineer | AIEnsured | Bengaluru, India

Mar 2024 – Present

- Collaborated within a 5-member cross-functional engineering team to design and develop full-stack web applications using React.js, Node.js, and Tailwind CSS.
- Mentored 1 intern on project architecture and development workflows during a product build cycle, strengthening team delivery capability.
- Developed and optimized backend APIs and pipelines using Node.js and MongoDB, reducing response time by 80% through manual and unit testing-driven performance tuning.
- Implemented Agile/Scrum methodologies within sprint cycles, accelerating delivery cycle time by 70% and improving cross-team coordination.
- Deployed and maintained applications on GCP and Vercel, leveraging CI/CD pipelines to reduce production downtime by 90%.

Software Development Intern | Koushalya Prayogh (ERP System) | India

2023

- Enhanced UI/UX of an e-learning platform using React.js, improving user engagement by 30%.
- Implemented authentication and course modules, reducing manual administrative work by 40%.
- Optimized SEO and application performance, increasing platform traffic by 25%.

PROJECTS

AI Fitness Coach | React.js, Node.js, NestJS, MongoDB, Docker, Kubernetes

- Built an AI-based workout generator serving 500+ users, applying a microservices architecture with Node.js and NestJS.
- Designed and containerized backend APIs (Docker/Kubernetes) capable of handling 10,000+ requests/day.
- Improved workout recommendation accuracy by 35% through iterative model refinement.

Dokmark – Bookmark Manager | React.js, Node.js, MongoDB, OAuth, CI/CD

- Developed a full-stack bookmark management application with OAuth authentication and automated CI/CD deployment, achieving 99.9% uptime.

EDUCATION

MCA, Computers | CMR Institute of Technology, Bangalore, India

2025

CGPA: 8.79/10

Bachelor of Computer Applications (BCA) | Amity University, Ranchi, India

2023

CGPA: 8.5/10

CERTIFICATIONS

- Java and Spring Boot Development

- HackerRank Certification – Java
- HackerRank Certification – Python
- Full-Stack Development Workshop – RVCE
